

JOURNEY TO THE NORTHERN ISLES

THE ORKNEYS AND SHETLANDS

SEPTEMBER 2ND - 11TH 2021

Jutting from the northern tip of Scotland into the North Sea, Orkney and the Shetland Islands have a unique history set within a dramatic coastal landscape. Scattered island communities are characteristically Nordic with strong Viking heritage developed over centuries of Scandinavian rule. The extraordinarily rich wildlife of the islands draws naturalists from around the world. Whether your interest is natural history or ancient worlds, this island sojourn is an adventure off the beaten track.

We begin with a gentle exploration of Edinburgh, Scotland's cultural and political capital. From Edinburgh, we fly to Orkney, making our base in the busy port town of Kirkwall. We spend time exploring this ancient community and tour the island's famed prehistoric sites. See Stromness and Scapa Bay, overlooking Scapa Flow, a major naval center in both World Wars. A morning at Skara Brae, one of Europe's oldest villages, highlights the long history of the island.

Flying from Orkney to Sumburgh, we continue further north to the Shetland Islands. Our adventures take us as close to the Arctic Circle as many of us will ever get! A day-long boat trip around one of the smaller islands, teeming with bird and sea life, will be a highlight. We'll gain insight into the importance of the woollen industry at the Sandness Mill, and we'll explore the charming capital of Lerwick.

Be part of the adventure with Discover Europe this year to the Orkney & Shetland Islands.
